Another mob is hunting the country for Albert Sewell, who has been making himself obnoxious by remarks concerning the whites. There is not much prospect of his capture, however, as he has been out of town two days.

Several people in Palmetto say that the talk of Sewell has not proven half so offensive as that of a negro named Smith, who has been expressing himself very freely of late regarding the killing of negroes by the whites. Smith has not been seen since yesterday, and it is believed that he has left the neighborhood.

Preacher Strickland at Palmetto: "I believe the whole trouble of all these disorders is traceable to politics. The ballot was thrust into the negro's hand immediately after his emancipation, when he was utterly unprepared for the judicious use of it, and the scallawags and carpet-baggers who came here and took charge of him filled his head full of false ideas, characterized him the ward of the Nation, and, for partibelieved to have reached its culmination. | ment, whether right or wrong. The ministers and church members and teachers among the negroes must be equally active in their efforts to build up a healthy public sentiment against the crimes which provoke lynchings as they are to build up a sentiment against that crime. NEW YORK, April 24.-A friend of Admiral Dewey, who was with him on board the flagship Olympia during his most trying days before Manila, and who returned to New York three months ago, made this have been perpetrated by the younger gen- statement this evening regarding Captain Coghlan's recent utterances:

"Captain Coghlan, of the cruiser Raleigh, told only part of the story of the relations of Admiral Dewey to Admiral Von Deiderichs at Manila in his speeches at the Union League and Army and Navy clubs here. The facts that Coghlan didn't tell were that Dewey had actually drawn up a plan of battle to fight the German admiral and that it was complete in every detail. Ne preparation was left unfinished, and if the clash had come Von Deiderichs's squadron would have been as completely annihilated as were the ships of Montijo's fleet. Admiral Dewey and his officers had noted the terriffic effect of the rapid-fire guns on the Raleigh, Concord and Olympia at the battle of Manila. It was arranged that if a fight should come the Raleigh should do the heavy work. Coghlan was to dash at the German admiral's flagship and riddle her with rapid-fire guns. Special to the Indianapolis Journal. CRAWFORDSVILLE, Ind., April 24.-The news from Terre Haute concerning the charge made by Dr. B. E. Patten that he was dying from slow poison, which he claimed had been administered by his wife, has created considerable talk here, where his wife is well-known. Mrs. Patten was Mrs. Julia Fletcher, of New Market, and her friends did all in their power to keep her from marrying Patten. She had friend to go to Terre Haute and Brazil and look up the doctor's standing and it was found he was well known in police circles at Brazil and had been fined at one time for intoxication. Mrs. Fletcher, however, went ahead and married him about a year ago and went from her home in New Market to Terre Haute. She lived with him about six months, when she returned to New Market and applied for divorce. She has not lived with Patten since about Christmas and how she has been able to get poison into his system during these past four months that she has not lived with

him is not explained. Mrs. Patten has been married four times. Her maiden name was Wilhite. She first married a Mr. Monfort, who was killed in the civil war. Her next husband was Charles Fletcher, who died. Then she married Anthony Gorham, of New Market, from whom she afterwards secured a divorce. Gorham wanted to have charge of some of his wife's property and she would not consent. After she was divorced from Gorham she took back the name of Fletcher and married Patten. She is quite wealthy, her property being valued at over a hundred thousand dollars, and this charge is regarded here as a scheme to get up a damage suit. Since leaving Patten she has paid \$150 house rent for a house in Terre Haute and says she had given Patten money to pay the rent before she left him.
